

Model No.: AMQ2n

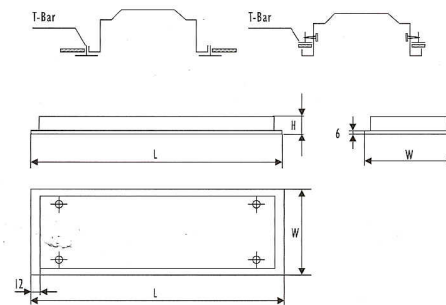

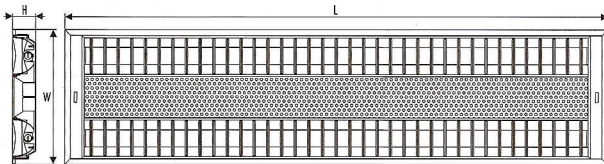

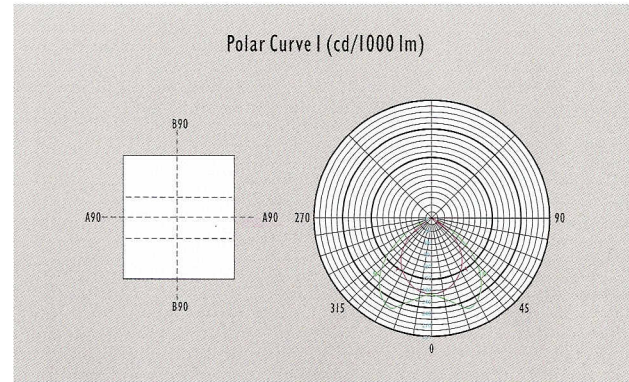

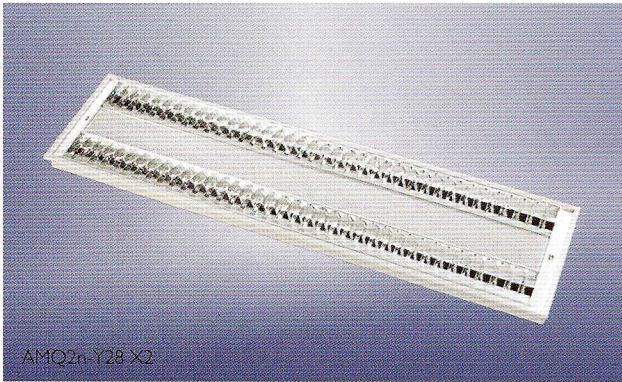

Power: 2X28W/2X21W/2X14W/ 3X28W

Materials: The luminaire body is pre-coated metal, which is based on zinc-plated steel, and the louvers and reflectors use imported full-specular (Miro) aluminium. The perforated panel is also aluminium.

Merits: Luminaire body is corrosion-resistant and durable because of the high quality materials used. Ultra-thin body height occupies less space. arched reflector ensures the light distribution is a smooth bat wing shape, and it also ensures a high diffuse reflectivity and a superb glare control. due to the purity of imported aluminium used, the reflector eliminates iridescence, and provides high reflectivity.

Application: Widely applicable to luxurious hotels, restaurants, office buildings or shopping centers.

Mounting: Suitable for recessed mounting or surface mounting.
